

I just wanted to take a moment and share with you the effect of allowing LPFM to take priority over FM transators. Thousands of people in my community currently enjoy KLOVE radio. They are providing a valuable service to our family. I cannot explain the joy in my heart when I turn on the car and my 2 & 5 year old are singing along. KLOVE is the only station that I trust my childrens ears with. The provide a clean and family friendly service to our community. For my family and thousands of others accross the country do not force them off the air in my community.
